Python | Django | PostgreSQL | Bootstrap | Git | Heroku

## Skills

**Languages:**    JavaScript, Python
**Technologies:** HTML, CSS, Bootstrap, Material-UI, tailwind CSS, NodeJS, ReactJS, ExpressJS, MongoDB, Django, REST framework, PostgreSQL, AWS, Postman, VSCode, Git

## Professional Experience

**Pro Evolution Wellness – Full Stack Developer (Freelance)**          *January  2022 - Current*
- Collaborated on a full-stack website with a team of three developers, utilizing React and Node.JS. Implemented user authorization for admin login and developed a content management system (CMS) for efficient management of website content.
- Utilized Agile methodologies such as weekly sprint planning meetings and Trello boards to ensure smooth project delivery and increase team productivity. Gained valuable skills in project management, web development, and teamwork through the experience.

**Oncidium – Accounting Analyst**          *June 2022 – October 2022*

**GFL Environmental – Tax Analyst**          *October  2021 – May 2022*

**Uken Games – Financial Analyst**          *August 2019 – December 2022*

## Education

**General Assembly** - **Software Engineering immersive**          *December 2022*
- Completed a 450+ hour software engineering program that emphasized Agile project-based learning models and MVC (Model-View-Controller) development principles.
- Acquired expertise in coding best practices, software development methodologies, and the latest web technologies through hands-on collaboration with teams to develop a variety of applications.

**University of Waterloo -  Higher Graduate Diploma in Taxation**          *September 2018*

**Western University - Bachelor of Management, Honors Specialized in Accounting**          *June 2017*

**Chartered Financial Analyst, Level II Completed**          *June 2021*
